Community Action Council Opens an Early Head Start Program at the Chrysalis Community Center

Chrysalis House is committed to the principles of continuous performance improvement in all our programs, services, and operations. We monitor the effectiveness of our services, meaning how well our programs work and the results that are achieved. We also look at service access, our capacity to provide services to those who desire them.

The majority of women we serve are either pregnant or have children under the age of three. As a result, a program and service need for onsite infant/toddler childcare was identified through client surveys.

To fill this service gap, Chrysalis House partnered with Community Action Council to provide an Early Head Start program for children ages birth - three. The Early Head Start program is located at the Chrysalis Community Center.

Community Action Council (CAC) offers comprehensive full-day, full-year early childhood development services for a maximum of 16 children. Each family served must meet CAC’s financial eligibility requirements. Comprehensive services include: early childhood education, health services, social services, and parental involvement.

Pregnant Women Added to Waitlist | 125 (15%)| 147 (16%)| 113 (14%)|

New pretreatment services, outpatient support, additional AA meetings and NA meetings have been added to the services that offered at Chrysalis House to address the treatment need.

New Pretreatment Services for Those on the Waitlist

New federal funding from Substance Abuse and Mental Health Administration (SAMHSA), to serve pregnant and parenting women, allows us to offer additional pretreatment services. Peer Engagement Specialist Lisa Ware was hired to offer pretreatment services for those on our waitlist. Lisa follows up with women on the waitlist weekly to discuss pretreatment services before admission, assist with emergent needs and referrals to detoxification services, as needed.

Chrysalis House offers Prenatal Families parenting classes for pregnant clients on our waitlist. This class may be offered to fathers, or other supportive family members as well.

Information is provided for Medication-Assisted Treatment as requested and indicated.

Chrysalis House Opens Outpatient Office at Serenity Apartments

Chrysalis House has added a new level of care to the continuum, outpatient services. Outpatient services include individual and group therapeutic activities, assisting a client in recovery from substance use disorders, provided in a nonresidential setting on a scheduled and unscheduled basis.

Outpatient services allow clients to carry on with their routine while receiving face-to-face services with a therapist. It is ideal for people who have jobs or a strong support system at home. Clients may transition to outpatient from a more intensive program. Outpatient is also a stepping stone for those not ready or willing to commit to a complete recovery program.

The benefits of offering different levels of care include:

1. Engaging women on the waitlist in a lower level of care, if recommended.
3. Potentially decreasing the amount of time one needs in residential treatment.
4. Providing additional service needs to partner agencies.
Big Book Study
Purpose: To understand the information the authors of the book, Alcoholics Anonymous intended to impart based on their experience and knowledge of alcoholism and their Program of Recovery.

Morning and Evening House Meetings
Purpose: To serve as a memory aid to track program and personal responsibilities for each day as well as provide structure to daily living. Activities for each day will be expressed in relation to longer term goals.

Corrective Thinking
Purpose: To reduce thinking errors that may lead to anger, criminal behaviors, relapse, relationship problems, or other self-defeating behaviors. Topics include closed thinking, the victim role, and instant gratification.

Nurturing Families
Purpose: To enhance a positive, nurturing philosophy for raising children. Topics include developmentally appropriate activities and expectations, effective discipline techniques, creating a safe environment, establishing routines, setting reasonable limits, and building trust and self-esteem in children.

12 Step Support Group
Purpose: To discuss successes and difficulties in maintaining sobriety.

Relapse Prevention
Purpose: To identify and prevent high-risk situations that may lead to relapse. Relapse Prevention focuses on changing beliefs, images, and thoughts to prevent a return to self-destructive behavior.

Relationships
Purpose: To develop and maintain healthy social and family relationships. Topics include common relationship mistakes, communication styles, commitment, and recognition and prevention of violence in relationships.

Seeking Safety
Purpose: To assist in providing coping skills to reduce the effects of trauma. Topics include setting boundaries in relationships, detaching from emotional pain, and coping with triggers.

Wise Minds
Purpose: To change patterns of behavior that are not effective, such as self-harm, suicidal thinking and substance abuse. DBT is composed of four skill modules: core mindfulness, interpersonal effectiveness, emotion regulation, and distress tolerance.

Computer Skills and GED tutoring
Purpose: To improve computer skills typically required in most work settings. Topics include computer hardware, keyboarding, basic software use, and internet use. To assist in preparation for testing to attain a GED in Kentucky.

Job Readiness
Purpose: To assist in preparation for entering or re-entering the work force. Topics include resume writing, interviewing skills, integrity on the job, and communication with supervisors and co-workers.

Group Therapy
Purpose: The opportunity to speak openly about personal issues, process feelings, and provide to and receive feedback from others in the community. The interaction among the group is a means of learning about the positive ways to communicate with others.

Adult Daily Living Skills
Purpose: To promote a healthy lifestyle. Guest Speakers invited. Topics may include healthy nutrition, exercise, tobacco cessation, physical health/dental health care and maintenance, prevention of HIV, Hepatitis C, and/or other STIs, community volunteerism, primary medical care vs emergency rooms, family health.

Personal Notebook Self-Assessment
Purpose: Personal Notebook Self-Assessment is a process that can deepen one’s understanding of self and can lead to significant discoveries or insights. Self-assessment is a process that involves establishing strengths, improvements, and insights based on predetermined performance criteria.

Addictions 101
Purpose: The objective of Addictions 101 is to provide accurate information about alcohol and other drug addictions; types of drugs that are abused; effects of drugs on the body; who is at risk of addiction and helpful screening tools.

Domestic Violence Education
Purpose: This Group, led by our Domestic Violence Coordinator, focuses on prevention of violence in the home and treatment for those who have experienced domestic violence.

In-House AA Meeting
Purpose: An In-House Alcoholic's Anonymous meeting, fellowship of current clients who share their experience, strength and hope with each other that they may solve their common problem and help others to recover from alcoholism.

Positive Social and Communication Skills
Purpose: To teach skills used to communicate and interact with each other, both verbally and non-verbally, through gestures, body language and our personal appearance.

Mother/Child Attachment
Purpose: To develop a relationship between a child and mother that involves making the child feel safe, secure and protected. The purpose is not to play or entertain the child but use the mother as a secure base from which to explore and find as a source of comfort.

Self-Care & Coping
Purpose: The objective is for clients to treat themselves as a person who deserves care.

Coping Strategies
Purpose: The objective is for clients to learn the skills/tools that they can use to handle life changes.

Spiritual Connections in Recovery
Purpose: The objective is to assess a person's willingness or readiness to change, determine where they are on the continuum between "not prepared to change" and "already changing", and promote identification and discussion of perceived barriers to change.

Family Education Groups/Family Meetings
Purpose: To assist in reconnection with family, repair of family relationships, and encourage family members to learn about and participate in recovery. Included will be sponsored gatherings with family members with education, social, and support activities as well as informal family visits.

Individual Therapy
Purpose: Based on the person's unique strengths, challenges, and self-identified goals, one-on-one weekly session held with a therapist to address goals identified during initial assessment; techniques utilized include, but are not limited to Cognitive Behavioral Therapy, Interpersonal Therapy, mindfulness training, and motivational interviewing.
Clients Get Fit and Quit...

Chrysalis House was chosen by the UK College of Nursing to pilot a smoking cessation program for child-bearing age women. The program, Get Fit and Quit, incorporates the use of physical exercise as a positive replacement behavior along with a smoking cessation curriculum.

While evidence for this pilot program is not yet published, this intervention was constructed using the evidence-based model, Smoking Cessation Model for Childbearing Women, developed by the PI (K. Ashford et al., 2011). Physical activity, including exercise, has been positively associated with initiating quit attempts and abstinence in non-pregnant women. Physical activity during pregnancy has many additional benefits including decreasing the risk for gestational diabetes, preeclampsia and cesarean delivery, as well as promoting healthy weight gain during pregnancy and weight loss after delivery (ACOG). The American Journal of Obstetrics and Gynecology (2016) recently published data linking prenatal exercise to reductions in preterm birth for normal-weight women with singleton, uncomplicated gestations.

Results from Get Fit and Quit Cohort 1:

11 females completed the program.
Average age = 33.
Average # of cigarettes smoked per day at baseline = 13.4.
Average # of cigarettes smoked per day at the end of Session 8 = 5.5
Carbon Monoxide at baseline = 14.81
Carbon Monoxide at the end of Session 8 = 11.2

Advocating for Federal and State Funding to Provide Substance Use Treatment to Pregnant and Parenting Women

Congressman Andy Barr, Secretary of Housing and Urban Development Ben Carson, Executive Director Lisa Minton and Governor Matt Bevin

Senate Majority Leader Mitch McConnell and Executive Director Lisa Minton
Sue Chenault has been a Chrysalis House board member for almost 15 years. She has served on numerous committees, including our very first Mother’s Day Luncheon Committee. She is the current Chair of the 12-Step committee. She works diligently with board members, staff, and the community to improve services for our women. She spearheaded the Big Book studies at each house, on-site 12-Step meetings, and the 12-Step Workshop series which is held every third Saturday of the month. She, other board members, and community volunteers work with staff to plan the programs, bring refreshments, and greet clients and their families. She has passion for the women and children of Chrysalis House and advocates for us whenever she can and represents us in the community.

Chrysalis House Board members graciously volunteer! You can usually find them at the Chrysalis Community Center the third Saturday morning of each month. They welcome clients, family members and panelists to our 12-Step Workshop Series.
During FY2018, Chrysalis House Received Grant Support From the Following:

- Orphan Society
- United Way of the Bluegrass
- Lexington-Fayette County Government
- Housing and Urban Development
- Bluegrass.org
- Justice and Public Safety Cabinet
- Foundation for Drug-Free Youth
- Kentucky Colonels
- Blue Grass Community Foundation
- Kenan Foundation
- Kentucky Foundation for Women
- Wellcare—Comprehensive Health Management
- Aetna Foundation
- Anthem Americorp
- Drug Free Lex
- The Cobb Foundation
- SAMHSA Center for Substance Abuse Treatment
- Bluegrass Charity Ball
- Children’s Charity of the Bluegrass
- Prevent Child Abuse Kentucky
- 100 Women
- Don Jacobs Charity Program
- Operation UNITE
- Partners for Youth
- Office of the Attorney General
- Kentucky Department for Behavioral Health, Developmental & Intellectual Disabilities
- Office of Drug Control Policy

YOUR DONATION

Supports Women and Their Children

Many of our donors continue to give year after year. Donations provide services and necessary items to the women and children at Chrysalis House. Donations can be sent via mail, taken over the phone, or made online at our website. If you have questions about making a financial donation to Chrysalis House, please go online and learn more at www.chrysalishouse.org.

Ann Miller supports us in so many ways, including her quilt ministry to help our women and children. We appreciate her and her countless acts of kindness.
